

Mai-BS (Thailand) becomes a major player in Bangladesh. The below news has been published on 6th. August 2011 at the first inside page of Bangladeshes most reputed newspaper.

Thai co to develop 5-star eco-resort in Moulvibazar

FE Report

Mai-BS (Thailand) Company Ltd has signed an agreement with DuSai Hotel and Resorts Ltd to develop a 5-star category 'eco-resort' in the north-eastern region of the country which is blessed with natural beauties.

It will be the first eco-boutique resort development in the country featuring 78 rooms and suites and a four-bedroom presidential villa with its own private lap pool, according to Newswire PR Today, a news distribution network.

Mai-BS is a Bangkok-based Hotel and Resort Consultant operating all over Thailand and South East Asia. Construction is on-going since March 2011 and soft-opening is planned for October 2012.

"We are extremely proud to be the preferred consultant for the owner-cum-developer of this first, deluxe and charming 'Eco-Resort' in one of the beautiful parts of Bangladesh" said

Klaus R Rauter, Managing Director of Mai-BS (Thailand) Company Ltd.

The project site in over 14 acres of land is composed of several small hillocks of 30-40 feet high, several mini valleys between the hillocks, a nearly 1000 feet long serpentine mini-lake and two large fish ponds.

The land is heavily wooded with thousands of trees of various types like teak, mahogany, Belgian, agar, jackfruit, mango etc. In addition tea tree plantations will be made in the slopes of the hills beside the lake to give a Tea Garden effect. It will be a destination resort by itself.

The project will include the leisure and entertainment facilities including nine two-storied thatched roof villas on the slopes of the hills facing the lake and tea garden, a heated designer infinity pool featuring open-air Jacuzzi and sunken pool bar, a purpose-built Spa run by Thai personnel, a 60-person cineplex, tennis court, two indoor badminton

courts and two restaurants run by foreign chef.

"We are happy to engage the services of Mai-BS (Thailand) Company Ltd to assist us in our deluxe resort development project because of their long experience in resort hotel project development and management," said Mr Nasser Rahman, Chairman and Managing Director of DuSai Hotel & Resorts Ltd.

"Our resort will be an eco resort not only just as a marketing slogan, but where eco and green will be a solid part of our vision and mission."

"Moulvibazar, home of our resort, is also the tea capital of the country featuring 139 large tea gardens and is one of the two government-declared tourist districts of Bangladesh. With its numerous tea gardens and the largest rain forest of the country, Moulvibazar has enormous tourism potential particularly in the four winter months and in the monsoon months," added Mr Rahman.
